

**Nonroutine Adaptive Management Proposal
Edwards Aquifer Habitat Conservation Plan
EAHCP Stakeholder Committee Report
September 21, 2017**

Overview

This Report is issued in response to the Nonroutine Adaptive Management proposal submitted by the Program Manager of the Edwards Aquifer Habitat Conservation Plan, dated August 1, 2017. According to the FMA, the EAHCP Stakeholder Committee is responsible for reviewing and making recommendations to the Implementing Committee for proposals submitted through the Nonroutine Adaptive Management process. This Report presents the final recommendation of the EAHCP Stakeholder Committee concerning this Adaptive Management proposal.

1. Summary of the Nonroutine Adaptive Management Proposal

On August 1, 2017, the EAHCP Program Manager submitted the attached Nonroutine Adaptive Management proposal to the Science, Stakeholder, and Implementing Committees. It involves modifications to the Sediment Removal measures (§5.3.6 and §5.4.4) and Impervious Cover & Water Quality Protection measure (§5.7.6) prescribed by the EAHCP.

2. Summary of September 21, 2017 Stakeholder Committee Discussion
