

### Reimbursable Meeting of the Science Committee

Members of the Science Committee who have been appointed by either the Implementing or Stakeholder Committee, and have accepted their nomination pursuant with Section 7.9.1 of the Funding and Management Agreement (FMA) are eligible to receive compensation pursuant with Section 7.9.6 of the FMA.

For 2013, Science Committee members will be paid \$200 per Science Committee meeting attended. A reimbursable meeting will be defined as any meeting of the Science Committee fulfilling a quorum requested by the Program Manager, Implementing Committee, or Stakeholder Committee that has also been publically noticed, or any meeting of a Subcommittee as jointly determined by the Program Manager and Implementing Committee that has been publically noticed. In the case of a subcommittee, only members identified by the Implementing Committee and Program Manager to that subcommittee will be compensated.
