

# 2015 Applied Research Recommendations

Field vs. Lab- no additional studies recommended  
pH Drift- no additional studies recommended

## Aquatic Vegetation Tolerance

- a) *Ludwigia* growth under varying conditions
- b) *Ludwigia* competition vs. *Hygrophila* & *Hydrilla*
- c) WQ effects on epiphytic algal growth

## Food Source

- a) Amphipod response in 28-34 C temp range
- b) Benefits of *Ludwigia* and *Vallisneria* on amphipod population
