

EAHCP Biological Objectives & Goals - Cheat Sheet

Covered Species

Species	Biological Goals & Objectives
Fountain Darter	Habitat-based population
	SAV restoration
	Water quality
Comal Springs Riffle Beetle	Habitat quality
	Water quality
	Population
	Riparian habitat restoration to limit sedimentation
Comal Springs Dryopid Beetle & Peck's Cave Amphipod	Water quality
Comal Springs Salamander	Habitat quality
	Water quality
Texas Wild-rice	14,451 m ² coverage
	TWR restoration & expansion
	Recreation awareness/control
San Marcos Salamander	Habitat quality
	Water quality
	Population
	Recreation control
	Aquatic gardening in Spring Lake
Texas Blind Salamander	Water quality

Spring Flow

Description	Total Comal Discharge (cfs)	Time-step
Long-term average	225	Daily average
Monthly	45	Daily average
Minimum	30	Daily average
Description	Total San Marcos Discharge (cfs)	Time-step
Long-term average	140	Daily average
Minimum	45	Daily average
