

**Nonroutine Adaptive Management Proposal
Edwards Aquifer Habitat Conservation Plan
EAHCP Stakeholder Committee Report
September 15, 2016**

Overview

This Report is issued in response to the Nonroutine Adaptive Management proposal submitted by the Program Manager of the Edwards Aquifer Habitat Conservation Plan, dated September 1, 2016. According to the FMA, the EAHCP Stakeholder Committee is responsible for reviewing and making recommendations to the Implementing Committee for proposals submitted through the Nonroutine Adaptive Management process. This Report presents the final recommendation of the EAHCP Stakeholder Committee concerning this Adaptive Management proposal.

1. Summary of the Nonroutine Adaptive Management Proposal

On September 1, 2016, the EAHCP Program Manager submitted the attached Nonroutine Adaptive Management proposal to the Science, Stakeholder, and Implementing Committees. It involves modifications to the submerged aquatic vegetation (SAV) restoration programs affecting the Long-term Biological Goals (LTBGs) for the fountain darter (*Etheostoma fonticola*) in the Comal and San Marcos systems and the flow-split management of the Old and New Channels of the Comal River.

2. Summary of September 15, 2016 Stakeholder Committee Discussion

[Will be written up during/following meeting.]

3. Nature of Stakeholder Committee Decision

[Will be written up during/following meeting.]

4. Recommendation

[Will be written up during/following meeting.]
